Please complete the following questions and submit your application using the Google Form by 5:00 PM on November 30, 2018.

By submitting this form you are expressing interest that as a host you will help coordinate with the Minnesota Departments of Health and Transportation and Bicycle Alliance of Minnesota and cover any costs associated with:
- assisting in locating a suitable facility for the workshop
- providing lunches and snacks for participants
- providing bicycles to participants as needed

Hosts are also key in identifying and inviting the right stakeholders to the workshop, and may be identified as a follow-up contact. We will be holding workshops in individual communities, and will not be holding county-wide workshops. Communities are eligible to apply if they have not hosted a Bikeable Community Workshop before and if they have not received a Bicycle Friendly Community designation from the League of American Bicyclists. If you have questions about eligibility or other aspects of the application or program, please contact the Bikeable Community Workshop Coordinator, Kate Matusinec: kate@bikemn.org.

This application is due at 5:00 PM on Friday, November 30th.

NOTE: Completion of this form does not guarantee your community will be selected to host a workshop. BikeMN, MDH, and MnDOT reserve the right to select communities based on identified needs, engagement, and geographic distribution.

Community:

Additionally, please attach letters of support from both the community engineer and the elected official who are sponsoring the workshop in your community. These letters should describe why the co-sponsors are choosing to support the project.

- Explain how your community would benefit from a Bikeable Community Workshop:

- Explain any experience your community has with planning, policies, ordinances, and implementing active transportation projects, including but not limited to, complete streets, non-motorized infrastructure, and safe routes to schools:
- **Explain** how your community plans to act on possible recommendations from the workshop with the goal of increasing bicycling and walking. Please include information on the inclusion and engagement of women, communities of color, low-income populations, and any other local populations experiencing health inequities.

- **Tell us about your diverse partners and stakeholders** that will be attending the workshop. One participant must be an engineer, and one must be an elected official. All attendees are expected to participate in the mobile workshop. A good answer will include the names, affiliations, and emails of a well-rounded group (see planning guide) of individuals who have agreed to participate in the workshop.

- **Describe** inequities around active living and active transportation that affect your community and how you have been addressing them. What challenges are you encountering?

- Prioritize your community's availability preferences for May, June and July. Please include your first, second, and third choice of weeks in this 3 month period. We cannot guarantee preferences will be met, but will work with successful applicants to best meet their needs.
